

Institutional capacity building in the Romanian-Hungarian cross border area

*Prepared by: Csetnek
Tímea*

*PhD Consultant:
dr. Jenei György*

PhD Workshop on
Regional Growth, Development and Competitiveness
Szeged, 24-26th April, 2013

Structure

A map of the border region between Hungary and Romania. The Hungarian side is shown in light grey, and the Romanian side is shown in light blue. Several counties are highlighted in green and yellow. The green counties are Haidú-Bihar and Békés. The yellow counties are Satu Mare and Timiș. The word 'MAGYAR' is visible on the left side of the map.

1. Institutional capacity building and social capita
2. Results of research-cross border indicator

Methodological approach: PRA

Research Questions

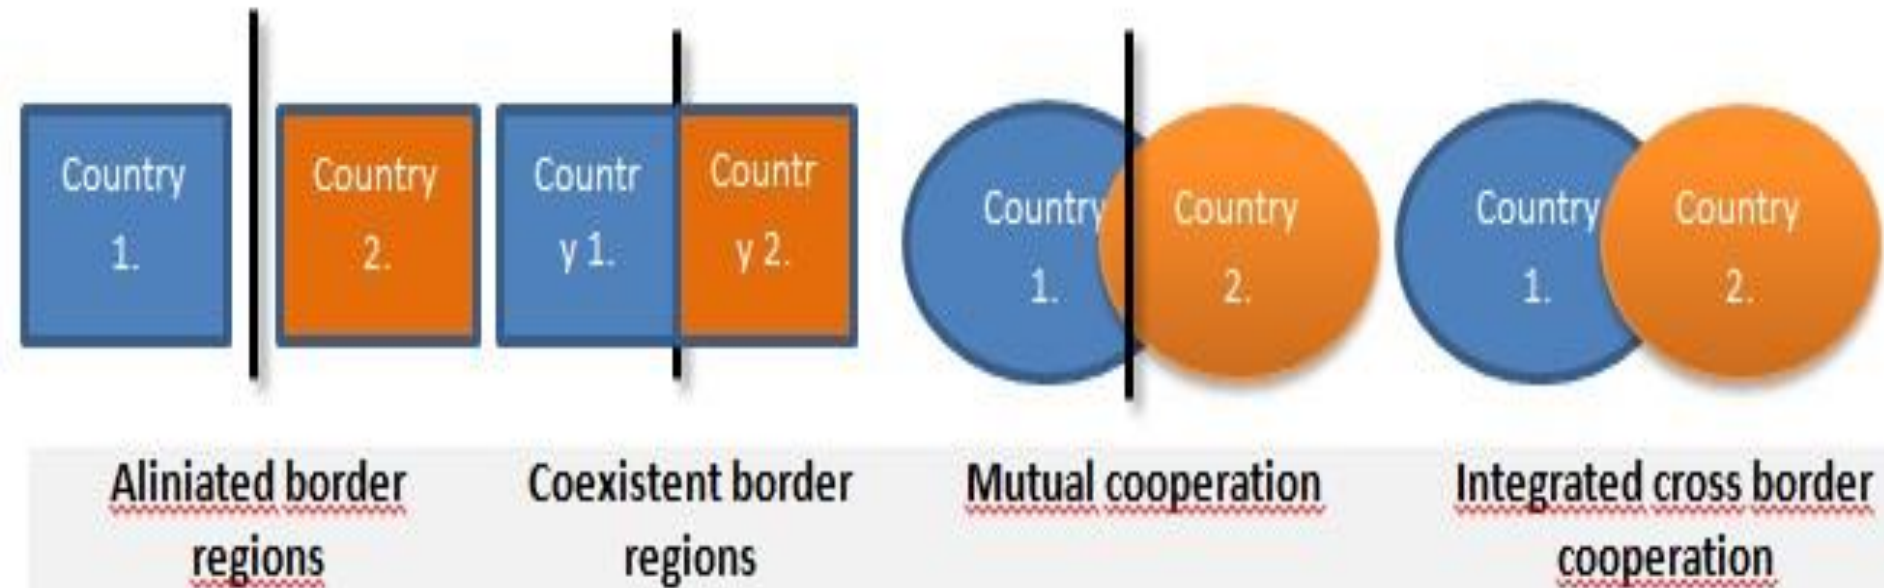

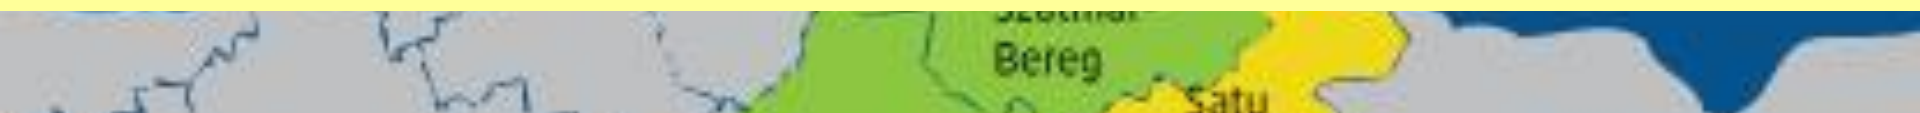

-The consolidation of the civil society will conduct to the development of the social capita.The projects results can be sustained for a long time by the organizations only if they have a high level of institutional capacity

-The institutional capacity building has a major importance in the European territorial cooperation and international development of this kind of cooperation and in this way we sustain that the institutions that realized PHARE CBC/INTERREG/ETC projects were able to carry out from this funds institutional capacity building between and with help of the partners who were involved in projects.

How to analyze the social capita in the border regions

- Cross border networks: analyse of the institutions, resources that can conduct for the improvement of the social relations, the typical people-to-people meetings
- Civil possibilities: intention for establish clusters and networks, opening from the cross border institutions for cooperation

Relations in the cross-border area

Institutional capacity building (I.)

1st level Institutional and legislative framework development

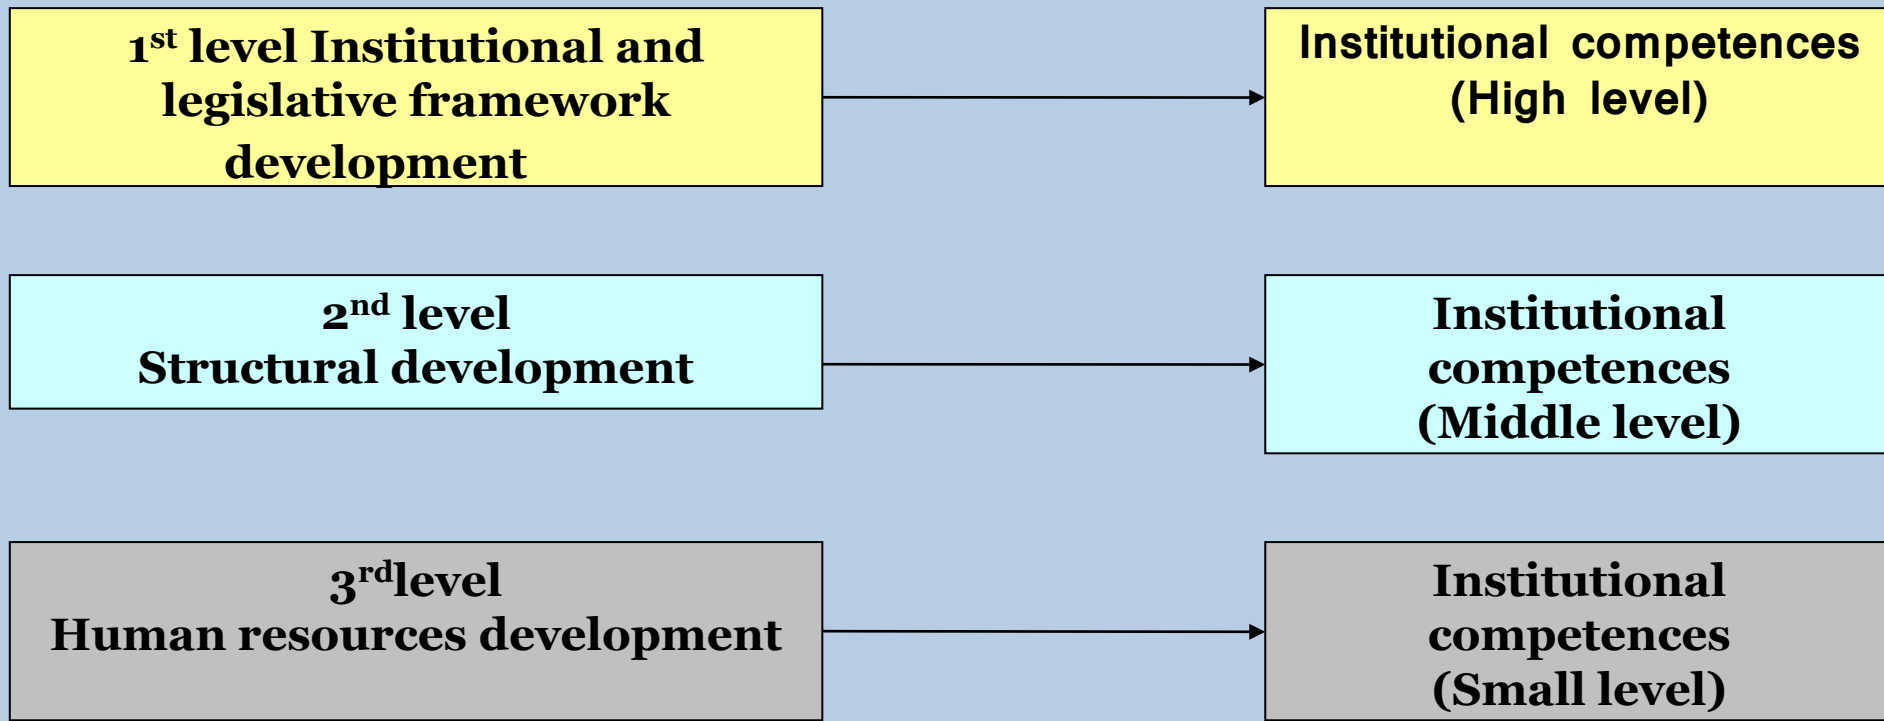

Institutional competences (High level)

2nd level Structural development

Institutional competences (Middle level)

3rd level Human resources development

Institutional competences (Small level)

Institutional capacity building (II.)

WHO?

WHAT?

WHY?

Csongrád

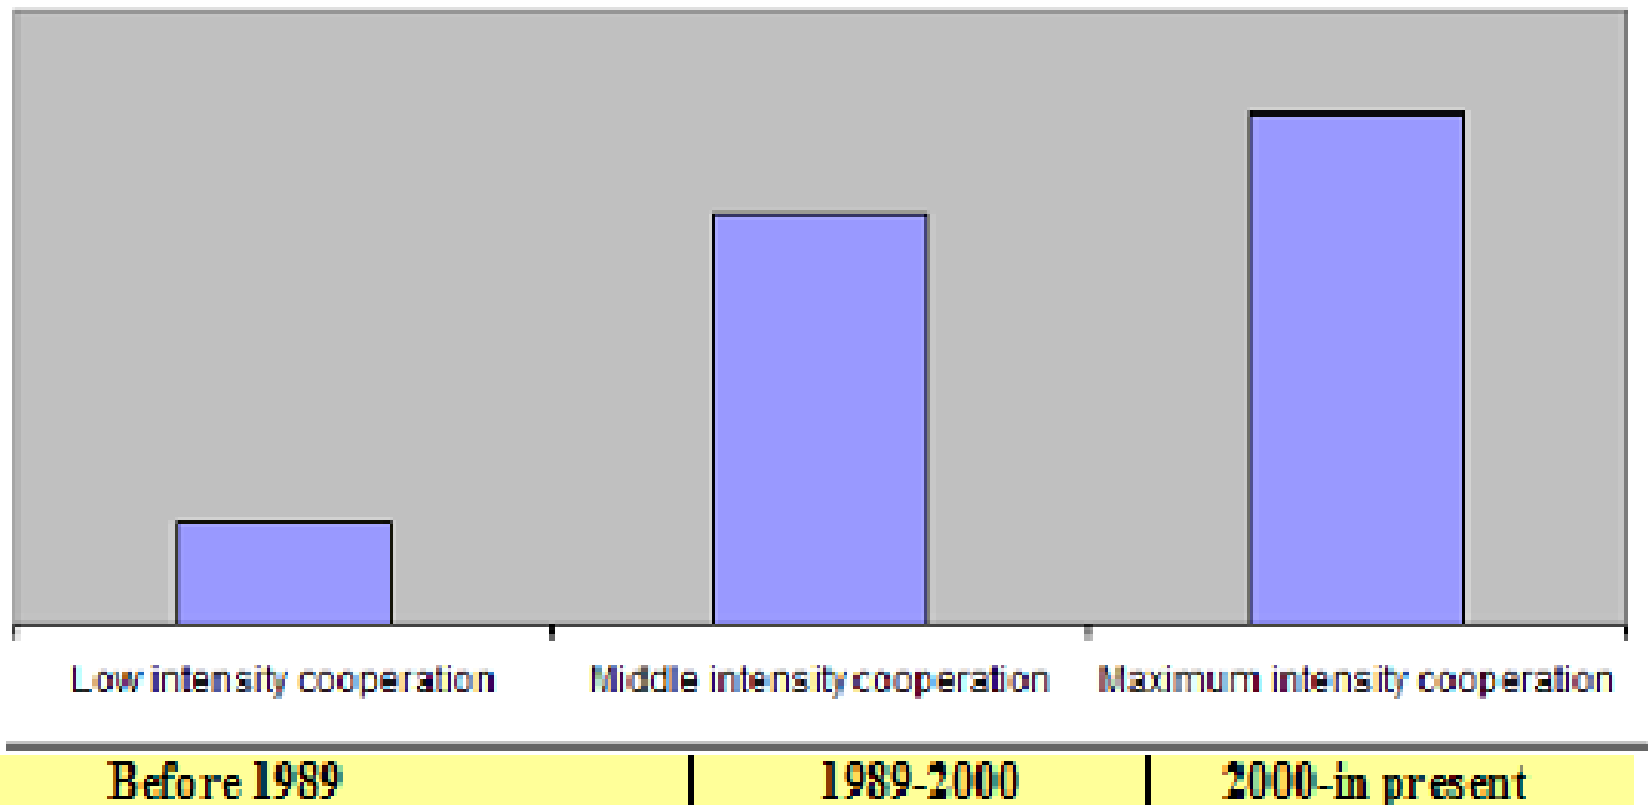

Arad

ROMÂNIA

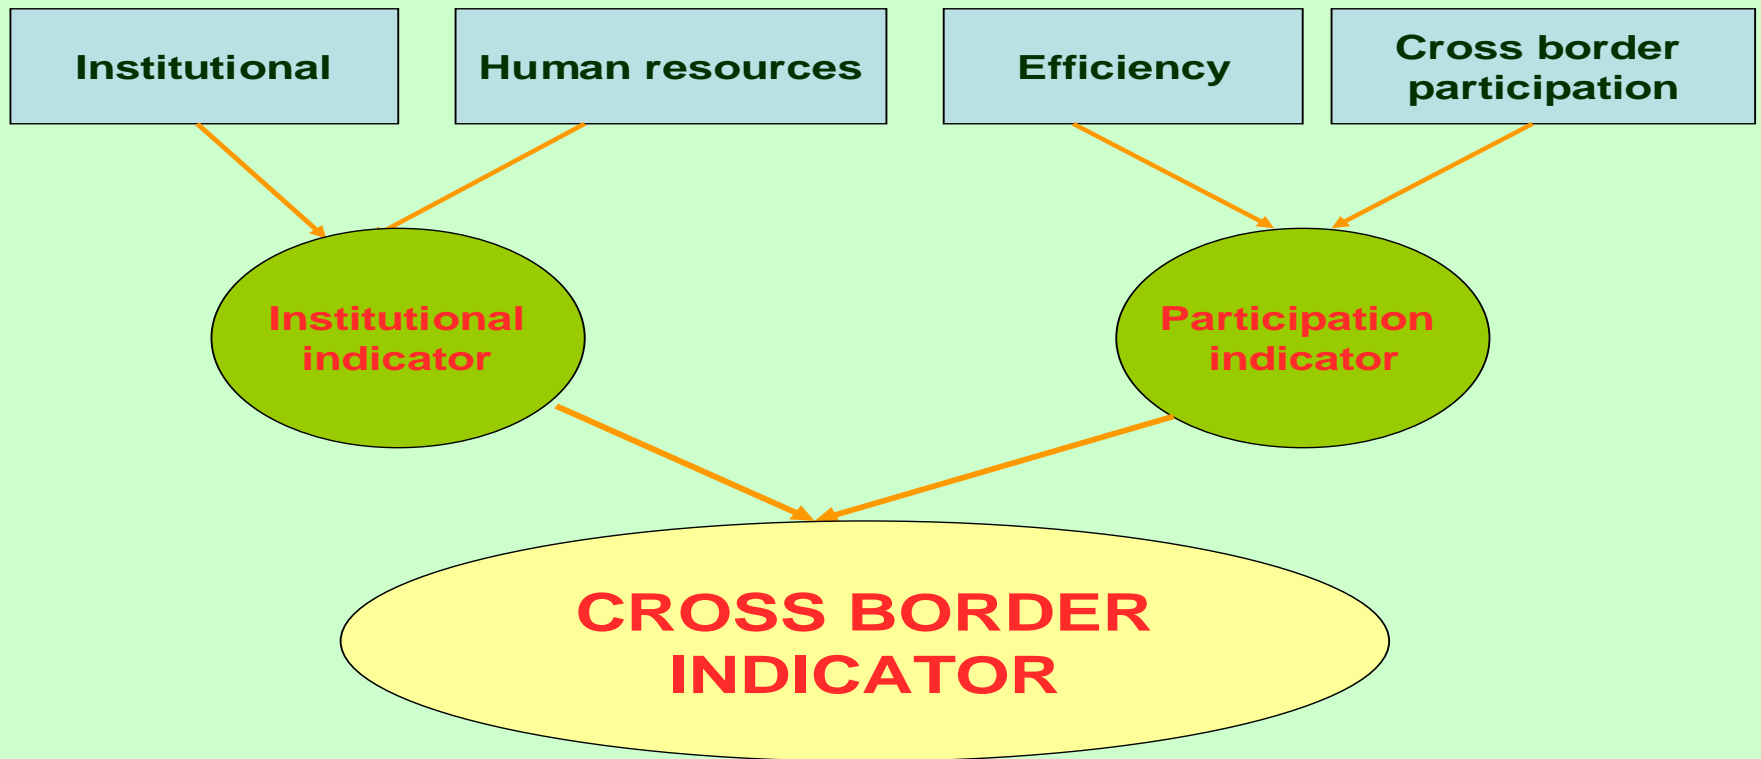

1. Who are the participants, actors?
2. What are the tools of capacity building?
3. Why was this development accomplished?

The cross-border cooperation (I.)

Intensity of cooperation:

Cross border indicator (I.)

Cross border indicator (II.)

- Will increase the level of interest of the local actors in the cross-border projects
- Will generate public debates between the local actors about the topic: what are the real expectations of the citizens from the border area
- Will offer one methodological proof about the reform initiatives of actors in border area
- Will offer a base of comparison for other institutions who work in all border regions at the European level
- Will offer information about the problems met by the local actors and try to propose solutions for this problems

Cross border indicator (III.)

The final value of the level of capacity building will be expressed for instance:

- **Between 25-40** the condition of institutional capacity building exist
- **Between 10-25** the institutional capacity building meets some problems, but the general conditions for the institutional modernizing and reorganization exist
- **Between 0-10** the institutional capacity building is conditioned by serious problems

Conclusions

- Level of capacity building in Romania and Hungary
- Level of capacity building in civil and public sectors
- Level of capacity building in County and Local Council
- Lack of experts
- Institutions-EGTC

A map of the border region between Hungary and Romania. The Hungarian side is shown in light grey, and the Romanian side is in light blue. Several Hungarian counties are highlighted in green and yellow. The green counties are Csongrád, Békés, Hajdú-Bihar, and Csetnek. The yellow counties are Bihor and Arad. The text 'MAGYARORSZÁG' is visible on the left, and 'ROMÂNIA' is visible on the right. A yellow banner is overlaid on the map.

Thank you for your attention!
