# Research and Development in the EU

## R&D&I and competitiveness in Europe

### Task 12

In this task you are asked to analyse the performance of EU member states regarding **R&D&I and competitiveness**.

- For that please use **Eurostat (gross expenditure on R&D)**, the **Innovation Union Scoreboard**, and the **WEF GCI 4.0 2019** (available at: <http://reports.weforum.org/global-competitiveness-report-2019/competitiveness-rankings/> )
- Please **visualise** EU member states' performance along these three dimensions. What **patterns** do you recognise?
- *For extra points:* try to carry out meaningful visualisation of several of the dimensions in single diagrams (e.g. scatter plots) and/or execute regression analysis to show the relations among the three indicators.
