

Developing financial consciousness online course instructions

Dear Reader, Welcome!

In this sheet, you can read information about the online course 'Developing financial consciousness' at the University of Szeged and its completion.

During the semester, **readers and videos** will be uploaded to Coospace, as 'Learning materials': you can download the readers and, in their description, you will find links to videos and instructions if needed.

Some of the topics are for 2 weeks. In these cases, the readers are proportionally longer and can be divided into parts (advise about where to divide will be given with the instructions of the specific material), but of course, you can fully read them at once.

You can find a link to a short Kahoot! test at the end of the readers: these can be used to test yourself.

The course can be accomplished by submitting answers or **assignments** weekly to different tasks that will appear weekly on Coospace as a 'Task' with a deadline. You can earn points by these tasks, all in all 60 points during the semester; your grade will be assigned on the basis of this. These tasks are always connected to the actual reader. Please keep in mind that this is the only form of accomplishing the course and that you won't be able to submit a task after the deadline.

During the semester, we will address the following topics:

Title	Length
1. Introduction – The psychology of money	1 week
2. Attitudes to money	2 weeks
3. Economic socialization	1 week
4. Money in relationships and the family	2 weeks
5. Buying behaviour	1 week
6. Money and motivation	1 week
7. Money and happiness	2 weeks
8. Tax behaviour	2 weeks
9. Behavioural economics	2-3 weeks

In case of any question, you can contact me: via e-mail (<u>vajda.beata@eco.u-szeged.hu</u>) or in a Coospace message.

I wish you a fruitful semester!

Beáta Kincsesné Vajda PhD lecturer
